The Master Skills Library Makes It Easy to Implement Skills Management

The Industry's Only Plug-and-Play Skills Library

Backed by experience: Our approach has been honed by over two decades of experience in the staffing and recruiting industry and vetted by industry experts.

Growing as we speak: We're working hard to continually expand and improve our skills libraries to cover even more roles, industries, and functional departments.
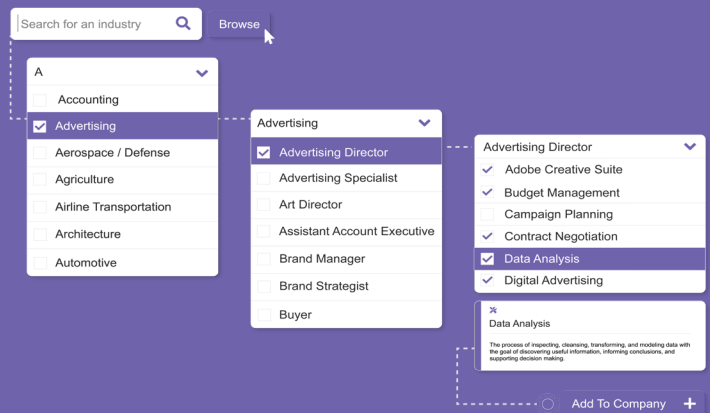

Dozen of Industries

Hundreds of Job Roles

Thousands of Skills

All Customizable to Your Organization's Unique Needs

Get Up and Running in No Time

Don't start from scratch: Create your Company Skills Framework by leveraging a robust library of skills grouped by job, industry, and functional area.

Eliminate guesswork: Take advantage of our research and expertise to quickly identify relevant skills for individual job roles.

Add jobs in a snap: Select an industry, choose the job role you want to add, review the associated skills, then add to company. It's that simple.

"We spent four months and countless hours trying to build a skills framework from our job descriptions without success. With Visual Workforce's library, we were able to create it in a single day. Amazing."

Tricia W., Director of HR

Let us show you how easy it is to get started.
